

Landscape Rock

greater vancouver
aggregates division

Features and Advantages

All *Lafarge's Landscape Clear Crush Rock* is produced from some of the highest quality igneous intrusive granite rock on the West Coast, by means of drilling & blasting, crushing, washing and vibratory screening. This is done to meet even the most stringent specifications under our Quality Assurance Program.

Both feed stock and finished aggregates are produced through our modern Crushing and Washing Processing Plants using the latest industrial quarry processing technology. The result is an environmentally clean, 100% fractured aggregate with a uniform particle size distribution, superior to most common or local pit aggregates

By using *Lafarge's Landscape Crush Rock* to enhance your project ground cover or erosion control protection you are supporting a BC produced product that is available to meet your landscaping needs year-round. Our clean, non-leaching environmentally sound products are available to be delivered to you by truck or they can be shipped to larger construction projects by barge using the Fraser River Waterways System.

Pitt River Quarries Landscape Clear Rock is an aesthetically pleasing "Salt & Pepper West Coast look" that maintains it's vibrant colour while complimenting your landscaping project. For additional product information or to place an order, please call our *Aggregates Dispatch Office*.

Typical Values

- Data shown here is accurate and reliable, but not a specification.
- Typical, means average percent passing on individual sieve.
- *Note: We also produce a smaller 5mm and a larger 200mm Clear Crush*

Particle Size Analysis

Sieves (ASTM)	12.5 mm Clear Crush	20 mm Clear Crush	25 mm Clear Crush	40 mm Clear Crush	75 mm Clear Crush
75 mm					100%
50 mm					46%
37.5 mm				100%	28%
25 mm		100%	100%	80%	26%
19 mm		94%	75%	48%	>1%
12.5 mm	100%	36%	21%	13%	
9.5 mm	84%	10%	6%	5%	
4.75 mm	9%	4%	2%	3%	
2.36 mm	2%	3%	2%	3%	
1.18 mm	1%	3%	2%	3%	
600 um	>1%	2%	2%	3%	
300 um	>1%	2%	2%	3%	
150 um	>1%	2%	1%	2%	
75 um	>.5%	1%	1%	2%
