

## Play Sand

### Features and Advantages

All **Lafarge's Washed Play Sand** is produced from some of the highest quality sand & gravel reserves in the Lower Mainland, by means of washing and vibratory screening. This is done to meet even the most restrictive specification and is monitored under our Quality Assurance Program.

Both feed stock and finished sands are produced through our modern Sand Processing Wash Plant using the latest industrial sand processing technology. The result is an environmentally clean sand with a consistent and uniform particle size distribution, superior to most common or local sand pits.

By using **Lafarge's Washed Play Sand** which meets Municipal Parks Specifications you can achieve a friendly play area for all children, either indoors or out-doors. Our Play Sand is also suitable for use in Volleyball Courts and as a Beach Sand.

**Lafarge's Washed Play Sand** is a evenly graded, clean, washed fine sand free of clay, organic materials and other deleterious matter, suitable for anywhere you wish to set-up your play area.

When using **Lafarge's Washed Play Sand** you are supporting a BC produced product that is available to meet your recreational needs year-round. Our clean, non-leaching, environmentally sound sands are available, delivered to you by full or partial truck loads.

**Lafarge's Washed Play Sand** is available at our Abbotsford Central Aggregates Pit, located at 1080 Bradner Road. Many other gradations of Beach, Long Jump, Volleyball, and Washed Sands are available at our Pits or Depots through-out the Lower Mainland. For additional information, or to place an order, please contact our Lafarge Aggregates Dispatch Office.

### Particle Size Analysis

**Typical Values** - Data shown here is accurate and reliable, but not a specification.  
- Typical, means average percent passing on individual sieve.

Sieves (ASTM)	Lafarge Play Sand
4.00 mm (#5)	100%
2.00 mm (#10)	98%
1.00 mm (#18)	85%
500 mm (#35)	55%
250 mm (#60)	15%
125mm (120)	3%

Product Code: AG2707-001
