

## Volleyball Sand

**Features and Advantages**

*Lafarge's Volleyball Sand* is produced from some of the highest quality sand & gravel reserves in the Lower Mainland, by means of washing and vibratory screening. This is done to meet even the most restrictive construction industry specification and is monitored under our Quality Assurance Program.

Both feed stock and finished sands are produced through our modern Sand Processing Wash Plant using the latest industrial sand processing technology. The result is an environmentally clean sand with a consistent and uniform particle size distribution, superior to most common or local sand pits.

By using *Lafarge's Volleyball Sand* which meets the Master Municipal Construction Documents (MMCD) Fine Aggregates Specification, you can produce a high quality playing court that is easy to maintain. Usage time is maximized as drying time and maintenance activities are reduced.

*Lafarge's Volleyball Sand* can be used in children's play areas, under swings, in horseshoe pits, or anywhere your project requires a clean, uniformly graded, free draining sand.

When using *Lafarge's Volleyball Sand* you are supporting a BC produced product that is available to meet your recreational activities year-round. Our clean, non-leaching, environmentally sound sands can be delivered to your project site by truck.

*Lafarge's Volleyball Sand* is available at our Abbotsford Central Aggregates Pit, located at 1080 Bradner Road. Many other gradations of high quality sand are available at our Pits or Depots through-out the Lower Mainland. For additional information, please contact our Aggregates Sales Team or to place an order, please call our Aggregates Dispatch Office.

**Particle Size Analysis**

**Typical Values**      - Data shown here is accurate and reliable, but not a specification.  
    - Typical, means average percent passing on individual sieve.

Sieves (ASTM)	Lafarge Volleyball Sand
4.00 mm (#5)	100%
2.00 mm (#10)	98%
1.00 mm (#18)	85%
500 mm (#35)	55%
250 mm (#60)	15%
125mm (120)	3%

Product Code: AG2707-378
